## FROM THE LIBRARY...

At the beginning of the term Gina asked her Library Monitors to be part of an excursion to Dymocks Books where they chose books to purchase for our Library. The Monitors did a great job of choosing appropriate books and we had a fun time spending money on some great selections!

The manager of the book store commented on how well behaved and mature the students were and was impressed with their ability to choose suitable purchases.

The Library Monitors have been WONDERFUL and dedicated helpers, I don't know what I would do without them! Great work girls and many thanks from me.

Gina

Cheers, just wanted to say that the Skoolbag app is awesome and makes life so much easier... Thankyou very much for implementing it!

*A HUGE thank you to the BBBB Committee!!!*

*Over  
\$13000  
raised  
for our  
Kitchen  
Garden  
Program.*

*Thank you  
All!*

## STUDIO 9 - MATHS

The Studio 9 Mini-golf Course was their Personal Maths project for Term 1. The challenge was to produce scale drawings of a hole that was no bigger than 4 square metres. The drawings had to include the placements of all obstacles, the perimeter, supplies needed and justification of the par.

Students chose a theme for their hole and with the support and donations from Mt Barker Bunnings completed the task. Bunnings' Event Coordinator - Louise, helped with time, tools and her sawing expertise.

Students are now keen to support the rest of the school to negotiate the course.

The Active Schools Grant allowed us to purchase the golf equipment and some of the older students were coached in the finer points of the game by local professional Warren Symons, one of five Master Professional coaches in Australia.

## Persuasive writing from Studio 3. Slippers at school... yes please!

11/4/2017

Dear Liz

I believe that all students should be allowed to wear slippers at school. I make a lot of sense. We are sure after reading our reasons you will agree.

First of all, Science has proven that wearing slippers to school encourages better learning. If wearing slippers to school encourages better learning we don't think you would be as stressed as you are now would you Liz?

Secondly you would be able to wear slippers at school too. Your feet must get freezing in winter, we are sure of that! It must be hard enough being a teacher without having freezing feet too.

Lastly we could bring an extra pair of shoes to wear at lunch, recess and fitness to avoid mud in the classroom. That would mean pack up would not take as long and you would be able to dismiss us on time.

We are sure that now you have read our reasons you will let us have slippers at school.

From Edith Ashworth-Kellell

A little bit of shaving cream...  
What fun!!!
